MODERN ENTERPRISING

WATER SAVING TECHNOLOGY OF GPD

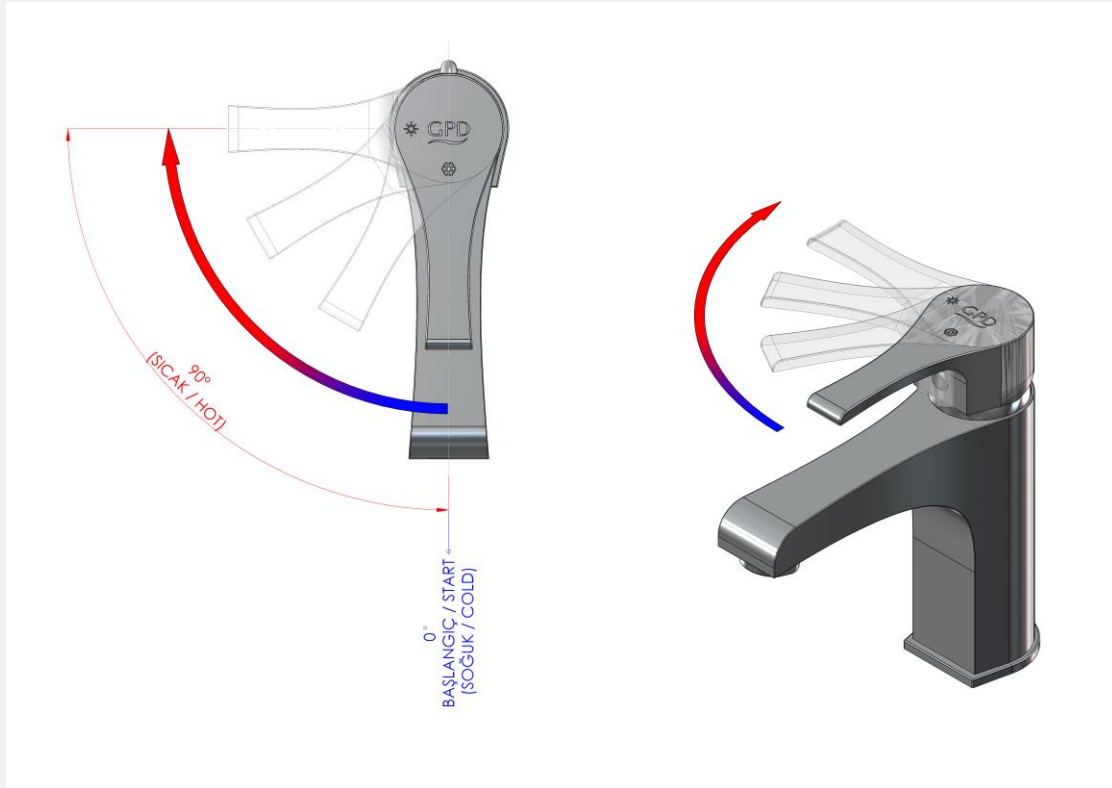

GPD 50 BAR CARTRIDGE

- The new cartridge extraordinarily developed by GPD, meets the International standards.
- Impermeability at 50 bar and durable at surge pressure (Ram-Hammer test)
- On-off working life 150.000 (TSE Norm is 70.000 on-off)
- Possible to reach to more sensitive heat adjustment with the potential of heat adjustment at 110 degrees (normal heat is 90-100 degrees).
- Produced of reinforced ceramic and plastic material.

*GPD makes difference
with the new cartridge*

FROM NOW ON, RITMO & ATROS HAS COLD START TECHNOLOGY

What is Cold Start Cartridge Technology?

When the handle is in the middle position, system start working with cold water

The more the faucet handle turned left side, user get much more hot water

Maximum hot water temperature can be reached only by turning the handle left 90° with Cold Start Cartridge; 90° usage provides best setting of the water by operating unnecessary boiler/water heater action

Energy saving system, protect nature

WATER SAVING AERATOR

SPECIAL PRODUCTS

ESPINA SINK ARMATURE WITH OUTLET CONNECTION OF WATER PURIFYING DEVICE

Nowadays, drinkable water resources is running down.
The water purifying devices are spreaded in our homes for this purpose.

GPD at your homes, becomes your solution partner with new generation Espina Water Purifying Device by preventing mixing purifying water with tap water for your usage.

Espina Water Purifying Device provides you with its very special design that brings purified drinkable water and regular tap water by different channels and also save your money by maximum 8 liters water flow in a minute...

MAR70

-Water flow conserving with 8 lt/min.

-Usage feature possibility as sink and water purifying armatures (small handle for purifying device and big handle is for tap water adjustments)

-Comfortable usage with 90° ceramic stemmer
